

# FLAPS Farms LLC

## Goat Sales Policy

**\*\*ALL SALES FINAL\*\***

### General Information

Kids will be dewormed, vaccinated (CD&T), tattooed before leaving for their new homes at weaning, usually at 10-12 weeks of age. \*Will only sell bottle babies if reserved before kidding as we normally do not bottle raise our babies.\* All of our goats will leave our farm healthy. Bucks can be wethered if you do so choose before leaving our farm. This will not be done before 4 weeks of age.

All goats are sold as healthy at the time they leave the farm. Any costs associated with shipping or transportation, including any health certificates, testing, crates, etc., are the responsibility of the buyer. There are no guarantees to the future health, height, or quality of the animal as they can change very much as they grow.

### Reservation Policy

To confirm a reservation, we require a \$50 deposit. (Reservations are booked when deposit is received.) If a kid of your reserved gender is not born, you may apply your deposit to another available kid or have your deposit refunded. If a breeding already has two reservations for kids of a particular sex, we will hold your place in line with no deposit required.

Since we can't predict the number or sex of kids that will be born, we encourage you to let us know your second and third choice should a kid from your first choice breeding not be available.

\*All goats must be picked up within 10 days of weaning or risk forfeiting deposit and goat\*

### Deposit Policy

After the kids are born, we will notify you if a goat is available from your selected breeding and confirm your selection if there is a choice of multiple kids. Once a contract for purchase is sent, a 50% deposit is required within 10 days or the reservation fee is forfeited and the kid will be offered to the next interested buyer or listed as available for sale. Reservations fees and deposits are not refundable if the buyer cancels the sale. This helps compensate for the lost opportunity to take a reservation or advertise a goat we believed already had a buyer. Thank you for your understanding.

We reserve the right to retain any kid born from our herd up until the sale is completed. If that happens, you can choose to have your deposit refunded or applied to another kid. If you have

any questions on the status of a kid, please contact us for details. Sometimes the decision on whether or not to retain a kid is delayed. (e.g. if we want to retain a kid from a particular sire, we may opt to wait until another doe mated to that same sire kids before determining if a particular kid will be available.)

### Payment Policy

It is the buyer's responsibility to pay ADGA registration and transfer fees. **All animals must be paid in full before leaving the farm - including the ADGA registration and transfer fees.** If you prefer to pay the day of pick up, please pay by cash or PayPal. Any PayPal fees are the responsibility of the buyer. If using PayPal, you can choose Friends and Family to avoid fees, or add the fees to your payment amount. If you prefer to pay by check, please mail the check early enough to allow 7 banking days for the check to clear before pickup is scheduled.

### Naming Policy

All breeding stock (buck & doe) kids will be registered (if available) with an approved name before they leave the farm. You are welcome to choose a name for baby if you wish.

### Prices

Wethers: \$150

Registered Bucks: Starting at \$250

Registered Does: Starting at \$300

Unregistered Does: starting at \$200

\*\*All bucks that are unregistrable will be wethered unless reserved and wanted otherwise before 4 weeks of age\*\*
